First Reading

### Background

Attached is the PSD Administrative Regulation for Prevention of Sexual Misconduct and Abuse in Schools with revisions. The original version of this AR was approved at the Board meeting on August 3, 2016. County Counsel has since then replaced the word “employee” throughout this AR with “school adult” in a revised version to refer to a person employed by, working in conjunction with or associated with school activities usually in a supervisory capacity (teacher, coach, activity leader) but can also be a support person (aide, volunteer, chaperone) for school-related activities on or off- campus. The Board Policy is also attached as a reference.
