Minutes:

Josie Peterson, CBO, discussed the background. See Board Memorandum attached to this agenda item.

Several community members addressed the Board:

Concerns were brought up in reference to traffic, the fact that teachers are considered low-income, lack of data to support retaining employees/large risk without data. Additional concerns included whether the housing would fill and the cost of yearly maintenance, affordable housing actually going to lower income staff, current renters of the Oddstad property and where will they will go to continue their community programs, and concerns about added emergency response needs/traffic patterns if an emergency occurs.

Community members as well as Pacifica School District staff commented on quality education and how it is linked to property value which would increase the value of the homes in Pacifica. Teacher/staffing crisis is due in part to housing in the area that is not affordable therefore leading to not being able to attract/retain staff. Affordable housing will retain teachers in the District which in turn helps our children connect with teachers and perform better.

A break was taken after the community addressed the Board on this item. Mr. Levie called the Open Session back to order at 8:40 P.M.

Board Comments:

Mr. Levie addressed some of the questions from the community.

Board discussion continued and questions from the Board addressed to Mr. Levie and Ms. Bredall, who are on the Oddstad Property sub-committee were answered. The Board discussed looking at the design of the project and criteria eligibility.

Quick Summary:

It is recommended that the Board of Trustees authorize staff to issue a request for proposal (RFP) for a Design/Build Contractor (DBC).
ACTION

**10.b. Local Control Accountability Plan (LCAP) and Budget Update
(LCAP Goals: #1, #2, #3) 8:00 P.M.**

Minutes:

Dr. Tukloff reported on LCAP and Budget with regard to the Board Work Study held on October 19th, 2016. The presentation and metrics have been updated on the District website. She reported that the District has made many of the goals, and has begun reviewing the SBAC results as PSD did not meet the goal in ELA and mathematics.

2016-17 budgetary needs were discussed. Additional funds have been needed for instructional materials that can be allocated out of Lottery Funds. Along with instructional materials there has been a growing concern for the inability to keep up with work orders for the devices we continue to purchase for the schools/classrooms. A

document guide was presented by Mr. Dan Lyttle, principal, IBL that showed the number of devices throughout the district. The suggested modification to the current budget was to shift some funds from Lease Income set aside for the purchasing of devices to personnel to allow for the hiring of a new technology technician. The consensus of the Trustees was to support this suggested change.

The 2015-2016 Local Control & Accountability Plan Goals & Actions Summary are attached to this item. The LCAP Budget Work Study PowerPoint Presentation can be found attached to the agenda of October 19, 2016.

Quick Summary:

A Pacifica School District Board of Trustees work study was held on Wednesday, October 19, 2016 to inform the Trustees regarding the results of the 2015-16 LCAP metrics, next steps based on the results, update on changes for this year from the state in relation to the state monitoring process, as well as budget progress and needs.

10.c. BP/AR 6154 Homework/Makeup Work (Goal: LCAP #2, #3) 8:15 P.M.

Minutes:

Dr Tukloff presented the BP/AR. The Pacifica School District Board of Trustees requested that the topic of Homework be discussed in light of national and community discussions.

In 2015-16, Leadership Council and Curriculum Specialists and school instructional Leads spent a great deal of time reviewing our policies and practices in Pacifica School District. With the shift to Common Core and the implementation of new curriculum we felt it a good time to reflect on our practices and understandings regarding the purpose of homework and calibrate between schools.

After much discussion regarding the merits of homework our Leadership Council and Curriculum Leadership agreed on the following points:

1. Homework is a part of our practices for educating our students as it provides an opportunity for extending learning time.
2. Homework must be meaningful.
3. Homework should be something the student is able to do.
4. The amount of homework varies based on the grade level of the student.
5. Schools develop their own practices built upon the guidelines of the Board Policy and Administrative Regulation, as well as the current research.

Board comments: Teachers are very perceptive to parent concerns. Let parents know that they can talk to the teachers about their concerns. Developing District homework practices and communicating that to parents.
