

The Single Plan for Student Achievement

School: Ocean Shore Elementary School
CDS Code: 41-68932-6044044
District: Pacifica School District
Principal: Joseph Funk
Revision Date: October 20, 2016

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California Education Code sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA.

School Vision and Mission

Ocean Shore Elementary School's Vision and Mission Statements

Ocean Shore School provides a nurturing environment for common core learning through a combination of whole class, small group, and individualized instruction. Thematic projects and project-based learning involve mixed-age groupings and are inclusive of diverse learners. Students are actively engaged as creative problem-solvers and critical thinkers.

Parents, staff, and community members collaborate within a shared leadership model to develop educational programs and provide instruction. Parents assist throughout the school and coordinate special projects including the library, computer lab, after school enrichment activities, field-trips and theme days.

A strong community is developed at Ocean Shore School for students, families, and staff. Our students have multiple leadership opportunities and have options to participate in a wide array of daily activities on campus. We are committed to creating a positive climate for our diverse community through learning and understanding of similarities and differences.

School Profile

Ocean Shore offers an academically challenging, kindergarten-through-eighth-grade program based on both the Common Core State Standards (CCSS) and California Content Standards as the State of California moves toward full-implementation of the CCSS. Our educational program encourages a high level of parent/guardian participation. Through parent/guardian participation and the flexibility of staff, the school is able to provide extensive small-group instruction, monthly field trips, annual overnight trips, and specialized theme-based projects that maintain a focus on learning that is personalized, maximizes student potential, and encourages a high level of critical thinking.

Ocean Shore's guiding principles provide for a challenging academic program while focusing on individual student strengths through experiential learning opportunities. We provide a well-rounded education that nurtures the whole child within the context of a community built on mutual respect, collaboration, and civic responsibility with parent/guardian participation being a cornerstone of our program.

The opportunities for parent/guardian involvement at Ocean Shore are comprehensive and unique. Over the years, parents and teachers have built an inclusive and nurturing community that embraces all students. Parents at Ocean Shore commit to a specific number of volunteer hours per year. Last year we had over 40,000 hours of parent participation. Many of our families have been participating in the school for more than ten years, and many on our staff are current or former parents. Parent leadership on the School Site Council and the PTO have resulted in the implementation of many support programs, including PE, gardens, music, science labs, and art. Our parents take on numerous committee and project leadership roles, and they work alongside our teachers to implement a project-based learning environment.

Ocean Shore evaluates its program based on State and school assessments, yearly parent surveys, and progress in our designated areas of improvement. Our staff meets four times a month to discuss best practices, to meet our goals for improvement and to participate in professional development. In addition, daily classroom aides are contracted by the PTO to assist teachers and supplement parent volunteers. In addition, all K-5 teachers of math attended math trainings on how to implement our new K-5 math adoption.

The Ocean Shore PTO continues to support technology at Ocean Shore and sets aside \$7000.00 in order to replace needed chromebooks or other pieces of technology and to purchase new technology each year. With the help of the Pacifica School District, we were able to successfully administer the CAASPP test last spring using technology purchased by both PSD and the PTO. We have moved to many "web-based" or "cloud based" programs as we transition into a time when students interact with technology more and more throughout their day. All ages of students have access to ipads and/or chromebooks. Additional features of our school include: ten break-out spaces for small-group learning, a library media center with a computer lab, an art room, a science/culinary room, and a music room. We currently have two full time custodians and a regular district maintenance crew that keep our buildings in good shape. Teachers and garden coordinators help to maintain our garden.

Ocean Shore emphasizes the value of community and respect for differences. In the 2014-2015 school year we hired a non-profit agency called MOSAIC to come in and support our Diversity Day. As part of this program we had staff training and parent training on the topics of effective communication. We continue to work towards a strong positive behavior program and we have few incidents

of fighting and suspension. We finalized our Playworks program and have many levels of students in roles as youth leaders. Our school supervisors, teachers, aides, and parents supervise our play yards. We update our safety plan yearly, conduct emergency drills, and maintain emergency supplies on site, including food and water. The school grounds are secured during the day. All visitors must enter through the front door, sign in and wear a label.

Ocean Shore has a continually changing landscape as shown by the following examples below:

- We have implemented balanced literacy in our kindergarten through eighth grade classes and have transitioned to common core math in all grade levels.
- We continue to update our technology curriculum and integrate technology in our classrooms and library media center. We have now moved to a 1:1 ratio of technology in 6th - 8th grade and all K - 3 teachers have wireless projectors in their classrooms.
- Students participate in our annual Oceans Week activities - a school-wide thematic week that utilizes engaging curriculum to address Next Generation Science Standards. The theme for 2016-2017 is Ancient Oceans.
- Our community is active in environmental issues in order to lower our carbon footprint, to conserve energy, and to sustain our local beach habitat.
- We host our annual Ability Awareness Day and our Celebrate Diversity Day filled with innovative education to engage and value all members of our community.

Teachers complete tri-annual standards-based progress reports in kinder through 6th and traditional report cards in 7th and 8th that detail each student's progress in specific areas. During conferences, parents and teachers review these progress reports and assessment data. After grade five, the conferences are led by the students in the spring. Parents/guardians who volunteer in the classroom have a chance to directly experience their children's education and we believe that the more directly involved parents are in their children's education, the more students will become engaged learners.

Specialized Programs and Staff

We contract part-time teacher support specialists using PTO money. This included a PE teacher for grade k through fifth and a chorus teacher once a week for grades kinder through 3rd. In addition, the district provided a daily band program for grades six through eight and this year, a half of a year of music for fourth and fifth grades and a fully credentialed PE teacher for all grades 6th - 8th. In addition, parent volunteers support the K - 3 psycho-motor program, art program and technology program.

Special Education Program

We have one full-time resource specialist, a part-time speech teacher, a part-time psychologist, and three full-time aides. We also have access to a part-time occupational therapist and behavior services as needed. In addition, we have a district Special Day Class. Many of the SDC students are mainstreamed for part of the day, interact as buddies, or take electives in the educational program. Special education students are included as much as possible into the daily education at Ocean Shore. All resource and speech students are pulled out of their classrooms for support services anywhere from 30 to 200 minutes per week. When possible, the resource teacher 'pushes in' to classes. All special education students have access to common core and supplemental activities at school and are fully integrated into various programs. In addition, in 2014 - 2015 we had a full time school psychologist who performed duties as both a school psych and a school counselor and a four-hour per week intern through YSB, a local counseling program.

English Learner Program

We now have approximately 6% EL students at Ocean Shore. We began small reading intervention groups for students who are EL designated (K - 4th grades). These students are served twice a week for half an hour sessions to help work on their language and reading skills. We place all English Learners in a classroom with a teacher who has Cross-cultural Language and Academic Development (CLAD) credentials.

Conclusions based on this data:

1. Ocean Shore did not meet it's growth target in 2015-16. Our EL population increased from 18 to 29, indicating significant growth in the number of students we serve and therefore the need to heighten our focus on this population. School Improvement Goal #1 includes actions intended to provide this additional focus and support.

Conclusions based on this data:

1. The Pacifica School District as a whole met it's EL growth goal while Ocean Shore School did not. Ocean Shore's relatively small EL population indicates and opportunity to provide targeted support as noted in School Improvement Goal #1.

Planned Improvements in Student Performance

School Goal #1

The School Site Council has analyzed the academic performance and school climate indicators of targeted student groups and has considered the effectiveness of key elements of the instructional program and school climate for students failing to meet standards and other State indicators as specified in the Local Control Funding Formula (LCFF) Rubric. As a result, the school has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards and to support social-emotional learning competencies.

SUBJECT: ELA
LEA GOAL:
Goal 2: Support all students in reaching their academic potential by providing engaging coursework across all core subject areas – English language arts/English language development, math, science, social science, physical education, and health. (Pupil Outcomes)
SCHOOL GOAL #1:
Ocean Shore School will provide additional resources and support for all students, while focusing on English Language Learners and Socio-Economically Disadvantaged students' needs, in order to move five students at each grade level (approx 10%) from "below standard" to "at or near standard" in ELA as measured by the CAASPP.

Planned Improvements in Student Performance

School Goal #2

The School Site Council has analyzed the academic performance and school climate indicators of targeted student groups and has considered the effectiveness of key elements of the instructional program and school climate for students failing to meet standards and other State indicators as specified in the Local Control Funding Formula (LCFF) Rubric. As a result, the school has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards and to support social-emotional learning competencies.

SUBJECT: Math
LEA GOAL:
Goal 2: Support all students in reaching their academic potential by providing engaging coursework across all core subject areas – English language arts/English language development, math, science, social science, physical education, and health. (Pupil Outcomes)
SCHOOL GOAL #2:
Ocean Shore School will provide additional resources and support for all students in to move five students at each grade level (approx 10%) from "below standard" to "at or near standard" in Math as measured by the CAASPP.
Data Used to Form this Goal:
CAASPP Results
Findings from the Analysis of this Data:
Percentage of OSS population in grades 3 - 8 who are below standard in the following areas: 25% in Concepts and Procedures, 19% in Problem Solving, Modeling, Data and Analysis, 16% Communicating Reasoning
How the School will Evaluate the Progress of this Goal:

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

Name of Members	Principal	Classroom Teacher	Other School Staff	Parent or Community Member	Secondary Students
Joseph Funk	X				
Patricia Buddington			X		
Renee Caughman		X			
Katy Stearns		X			
Karen Gnusti				X	
Cristin Fong				X	
Patricia Balmas-Garcia				X	
Kimberly Jones				X	
Jonelle Chase				X	
Numbers of members of each category:	1	3	1	4	1

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The school site council (SSC) recommends this school plan and Proposed Expenditure(s) to the district governing board for approval and assures the board of the following:

1. The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.
2. The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the Single Plan for Student Achievement (SPSA) requiring board approval.
3. The SSC sought and considered all recommendations from the following groups or committees before adopting this plan **(Check those that apply):**
