

The Single Plan for Student Achievement

School: Sunset Ridge Elementary School
CDS Code: 41-68932-6044069
District: Pacifica School District
Principal: Ellie Cundiff
Revision Date: October 14, 2016

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California Education Code sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA.

School Vision and Mission

Sunset Ridge Elementary School's Vision and Mission Statements

Sunset Ridge is dedicated to providing a rigorous education in a nurturing learning community that addresses the needs of the whole child. Teachers and staff embrace balanced literacy – through the Workshop model - by providing students with state-of-the-art teaching methods in reading and writing. Engaging math and science programs also provide all learners with critical thinking and collaborative opportunities. Sunset Ridge's comprehensive program fosters creativity through Art and Music. Our school community is dedicated to the physical, social, and academic well-being of every student.

School Profile

Academic growth and a focus on the whole child is the culture of success that is Sunset Ridge Elementary. We provide a comprehensive educational program for Transitional Kindergarten through Fifth grade that is supported by the entire school community and the community of Pacifica. Our students and their families are assured of an educational experience that will prepare them for the world of college and career by developing the critical thinking skills children will need to be successful. During past 12 years we have seen our students thrive. Our school is considered a High Achieving School by the California Department of Education. We have won the CBEE Honor Roll Award for making significant academic progress in addressing the achievement gap.

The reason our students continue to be successful is the concentration on four key program elements: literacy, a well-balanced curriculum, student support systems, and community and family involvement. Our school culture is committed to using best practices in teaching all students; collaboration between staff, parents, and the community; and to meeting the different academic and developmental needs of the whole child. Sunset Ridge has developed an outstanding learning environment that promotes critical thinking and builds a sense of community. A large number of our students have reported that they feel like they are part of the school and have opportunities to be involved in school activities.

We have a strong and caring PTO that supports our school through fundraising, volunteering in the classroom, in the gardens, and in the cafeteria. We have a parent room where parents can mingle and plan community events. Our PTO has a reputation of establishing a sense of community and always remaining dedicated to our school and our students even after their children have moved on to middle school. This is our 6th year of our Room Parent Program and we are getting more and more support from our Room Parents. The Room Parents meet 5 times a year and plan classroom, grade level, and school wide events. They also support communication between the PTO and the school community guaranteeing that everyone is aware of school events.

Through the support of the community an outdoor classroom was built. It is a deck that is in the shape of a whale's tail and overlooks the city of Pacifica and the Pacific coast. Students get to visit the outdoor classroom and learn about the environment, look for whales, or enjoy working on projects from class. We have a native wellness garden surrounding the outdoor classroom. Many times you will see children and families enjoying the view from the deck. We also have a vegetable garden on our campus where students can learn about the life sciences and make real world connections while getting their hands dirty. Last year the entire school community participated in painting a mural on our two portables. The mural depicts our coastal environment with a gray whale, the Golden Gate Bridge and the coastal hills. We also included words that represent the things that make Sunset Ridge shine: Responsible, Respectful, Caring, Fun, Integrity, Community, Learning, Helping, Trust, Bonding, and Diversity. The district mission, "Working together to prepare each child for the future by nurturing curiosity and inspiring joy and confidence." is also included in the mural so that we all remember that our goal is to provide our children the very best education.

Sunset Ridge is a diverse school where children develop an appreciation for different cultures and learn to understand different perspectives that will support them in a multi-ethnic world. Our children speak over 20 different languages and come from all over the world. The experiences and backgrounds they have enrich the learning of all students. Eileen Gale Kugler, author of *Debunking the Middle-Class: Why Diverse Schools are Good for All Kids* said, "Learning comes alive when wisdom is shared not only by competent teachers and books, but also by fellow students with life experiences and cultures that illuminate whole new worlds. Children in diverse schools learn to think for themselves, develop new and broadening friendships, and are simply better prepared for the future in schools that have students from different backgrounds." We are excited to begin our Foreign Language in Elementary Schools (FLES) program this year in grades Kindergarten through 3rd grade with the goal to introduce students to Spanish language for 90 minutes of instruction through the week. The program is designed to promote Global Citizenship, develop

proficiency in oral and written language in Spanish and to encourage and foster all students to develop an openness, understanding, and appreciation for other cultures.

Sunset Ridge teachers and staff are trained in providing differentiated instruction to support student learning so that each child is working at their individual level. Every teacher participated in professional development this past summer to learn new curriculum that supports the Common Core Standards. We have hired additional staff to support students in Language Arts, PE, and Science. We also provide after school tutoring and homework clubs based on student assessment results and referrals. We provide a variety of programs for our students including art, music, PE, and science classes. We have a full time counselor from the Family Resource Agency and two part-time counselors that work with individual or small groups of students to support social skills. We also have a Benefit Analyst on campus two days a week to support families. We have several extra-curricular programs for students after school including: Hip Hop dance classes, Tai Kwon Do, Homework Centers, drama, Spanish, Vedic Math, Girl Scouts, Bollywood Dance, and STEM, to name just a few.

Sunset Ridge teachers and staff are dedicated to improving teaching practices across the curriculum. We have an active Literacy Committee, Math Committee, and an Instructional Leadership Team that meets on a regular basis. We do book readings as part of our Professional Learning Community, plan staff development, and lessons around the needs of students. We have ST Math, (iJi), Ticket to Read, and Brain Pop computer programs that children can do at school or home. Teachers can assign homework on the programs and can see how the children did so that they can support them at school.

We have two childcare centers on our campus that provide before and after school care. We have built a seamless transition between school and after care programs. We work closely with the childcare programs to ensure that students are in a safe and engaging environment.

The parents and staff are dedicated to making Sunset Ridge students shine. Excellence through Diversity is our motto.

Conclusions based on this data:

1. The data shows us that most of our students are at the "At or Near Standard" area in all areas of Reading, Writing, Listening, and Research/Inquiry. We have significant numbers of students that are the Below Standard level. The Instructional Leadership Team (ILT) and the Site Lit Team have looked at the data and determined that we need to focus on the amount of time students are spending time reading and the volume of writing students are doing on a daily basis. We see a need to work on students stamina so they are not intimidated by long passages. We also know that we need to work on vocabulary development.
2. We will be monitoring students that are participating in intervention programs
3. We will be doing parent education workshops around reading with their children at home.

Conclusions based on this data:

1. The data shows that our the majority of our students are in the At or Near Standard and the Above Standard area, but we also have a number of students that are in the below standard area. We need to monitor student progress in math.
2. The data shows us that we need to work on academic vocabulary development with all students, but especially our ELL and SED students.
3. The data shows us that our 3rd grade classes had fewer students in the Below Standard area than the other grades. We need to spend time looking at why this is.

| Met Percent Proficient or Above | No | N/A | |
| Met Target for AMAO 3 | No | | N/A |

Conclusions based on this data:

1. We see that we had 68.5% of our ELL that met the annual growth as measured on the CELDT.
2. We saw a decrease in the number of students meeting proficiency in the Less Than 5 year group, but a 7% increase in the More Than 5 Year group. This indicates that our long term English Language Learners are making progress towards being proficient in English.
3. AMAO 3 is related to the Annual Yearly Progress. Information on this section is currently not available.

Planned Improvements in Student Performance

School Goal #1

The School Site Council has analyzed the academic performance and school climate indicators of targeted student groups and has considered the effectiveness of key elements of the instructional program and school climate for students failing to meet standards and other State indicators as specified in the Local Control Funding Formula (LCFF) Rubric. As a result, the school has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards and to support social-emotional learning competencies.

| |
|---|
| SUBJECT: English Language Arts |
| LEA GOAL: |
| Goal 2: Support all students in reaching their academic potential by providing engaging coursework across all core subject areas- English language arts/English Language Development, math science, social science, physical education, and health. (Pupil Outcomes) |
| SCHOOL GOAL #1: |
| Our goal is to increase the English Language Arts/ English Language Development skills of all of our children including all significant subgroups by increasing the number of students meeting the end of the year benchmark as measured on DRA2 or TCRWP assessments and by gathering data on student writing through the use of On Demand Writing Prompts. |
| Data Used to Form this Goal: |
| DRA2, TCRWP, CELDT results, SBAC, student work samples, demographic information |
| Findings from the Analysis of this Data: |
| The DRA2 and the TCRWP Reading Assessment results show that we did not meet the goal of having 70% of our students meeting the end of the year benchmark. We had 60% of our students meeting the end of the year benchmark which is a slight dip from the 2015 results where we had 62% of our students meeting end of the year benchmark. The SBAC results show that we had 4% more students who met or exceeded the standards. In 2015 we had 39% of our students that met or exceeded the standard. In 2016 we had 43% of our students that met or exceeded the standard. We saw a small increase in each demographic group but saw the largest increase in English Language Learners and Students with Disabilities.. Students that are English Language Learners made a 19% increase. Students with Disabilities made a 14% increase. Our 4th graders ma |
| How the School will Evaluate the Progress of this Goal: |
| All students will be provided with coordinated classroom instruction in a comprehensive balanced literacy program. By June 2017, 70% of the students will meet the end of the year benchmark at the independent reading level as measured by DRA2 and or Teachers' College Running Record assessments. By June 2018, 75% of our students will be meeting end of the year benchmarks as measured by DRA2, TCRWP, and other formal and informal assessments. |

| SUBJECT: Math |
| LEA GOAL: |
| Goal 2: Support all students in reaching their academic potential by providing engaging coursework across all core subject areas- English language arts/English Language Development, math science, social science, physical education, and health. (Pupil Outcomes) |
| SCHOOL GOAL #2: |
| All students, including all significant subgroups, will be provided with a coordinated classroom instruction in a comprehensive, balanced, standards-based mathematics program. By June 2017, we will see an increase of 5% of the students meeting standard in math as measured by SBAC testing. |
| Data Used to Form this Goal: |
| A review of 2015 and 2016 SBAC scores, CELDT results, Reading data and math scores |
| Findings from the Analysis of this Data: |
| We see that we have 38% of our students that met or exceeded the standard on the SBAC. This is a 2% decrease from the scores from 2015. We did see that 4th grade made a 5% increase overall, while 3rd and 5th saw a small decrease. Our overall scores is on par with the state, but lower then the county and the Pacifica School District. |
| How the School will Evaluate the Progress of this Goal: |
| The staff will meet as grade level teams to review and analyze student work and plan lessons. The Site Math committee will meet to review data school wide and identify trends and discuss and plan interventions based on the data that supports students math and language skills. As a staff we will discuss testing arrangements and support students with using computers to complete math problems. We will also make sure that the students have materials such as scratch paper to work out problems. |

School Site Council Membership

California Education Code describes the required composition of the School Site Council (SSC). The SSC shall be composed of the principal and representatives of: teachers selected by teachers at the school, other school personnel selected by other school personnel at the school, parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school. The current make-up of the SSC is as follows:

| Name of Members | Principal | Classroom Teacher | Other School Staff | Parent or Community Member | Secondary Students |
|--------------------------------------|-----------|-------------------|--------------------|----------------------------|--------------------|
| Ellie Cundiff | X | | | | |
| Darlene Easterby | | X | | | |
| Sydney Tyler-Parker | | X | | | |
| Dane Peterson | | X | | | |
| Matt Pearson | | | | X | |
| Leo Russo | | | | X | |
| Felicia Davis | | | | X | |
| Molly Bolich | | | | X | |
| Lauren Reynolds | | | X | | |
| Molly Bolich | | | | X | |
| Numbers of members of each category: | 1 | 3 | 1 | 5 | 0 |

At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Recommendations and Assurances

The school site council (SSC) recommends this school plan and Proposed Expenditure(s) to the district governing board for approval and assures the board of the following:

1. The SSC is correctly constituted and was formed in accordance with district governing board policy and state law.
2. The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the Single Plan for Student Achievement (SPSA) requiring board approval.
3. The SSC sought and considered all recommendations from the following groups or committees before adopting this plan (Check those that apply):
