Sunset Ridge Elementary School
Responses to Emergencies
Immediate Action Response: The Big Five

1. **Drop, Cover and Hold On**: Implement during an earthquake or explosion to protect building occupants from flying and falling debris.
2. **Evacuation**: Implement when conditions outside the building or off-site are safer than inside or on-site. Requires orderly movement of students and staff from school buildings to a pre-determined safe location.
3. **Lockdown/Barricade**: Initiate for an immediate threat of danger to occupants of a campus or school building and when any movement will put students and staff in jeopardy. Once implemented, no one is allowed to enter or exit rooms for any reason unless directed by law enforcement.
4. **Secure Campus**: Initiate for a potential threat of danger in the surrounding community. All classroom/office doors are closed and locked and all students and staff remain inside until otherwise directed. Instruction continues as planned.
5. **Shelter In Place**: Implement to isolate students and staff from the outdoor environment and provide greater protection from external airborne contaminants or wildlife. Close windows and air vents and shut down air conditioning/heating units.

PRINCIPLES OF SAFETY

- First: Get your children to a safe place or position
Second: Take roll and report absences
Third: Hold children until other directions are received

EARTHQUAKE, EXPLOSION – DROP & COVER (NO WARNING SIGNAL)

- Children drop immediately at teacher’s direction.
 - a. **Inside** - drop to knees under a desk; clasp one hand behind neck, hold onto desk with other hand, bury face in arms; make one’s body small as possible; close eyes and cover ears with forearms; and face away from windows.
 - b. **Outside** - Move away from building and power lines; follow drop procedure. When safe, proceed to FIRE DRILL positions on play field.

EVACUATE THE BUILDING

The signal for evacuation shall be the fire alarm or the verbal command, “EVACUATE”. Take children to assigned locations on the yard or fields. Evacuation is appropriate for:

- Fire
- Post Earthquake
- Bomb Threat
- Explosion or Threat of Explosion
- Chemical Accident
- Flood

Before School, Recess Times, and After School – Lead children to play yard or fields.

INTRUDER ALERT: The signal for INTRUDER ALERT may include: PA System or Messenger with the command, “**LOCK DOWN/BARRICADE**” Follow this procedure:

- a. Direct an unknown person to the Office if the person is considered safe
- b. For an uncooperative intruder:
 - o Notify Office immediately. Call 911!
 - o Do not approach the person.
 - o If instructed, **LOCK DOWN/BARRICADE** your classroom: **LOCK DOORS, CLOSE BLINDS, LIGHTS LOW.**
 - o **Outside:** Move students to a safe area as quickly as possible. It may be necessary to drop and cover.
 - o Children in the Library or MPR stay and follow “Lock Down/Barricade” Procedure.
- c. Intruder “**LOCKDOWN/BARRICADE**” is appropriate for:
 - Dangerous person(s) on campus, and
 - Family members or persons with restraining orders against them.
 -

TEACHER INSTRUCTIONS

Primary responsibility is to locate and provide safety for your children. During an emergency, teachers **HOLD** students in the classroom until it is safe to evacuate or other instructions arrive.

ALL CLEAR –

The signal for all clear may be from the PA System, a messenger, or whistle.
