Are you a continuing Delegate? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No If yes, how long have you served as a Delegate? <u>4 years</u>	

Why are you interested in becoming a Delegate? Please describe the skills and experiences you would bring to the Delegate Assembly.

I want the CSBA to be a strong organization advocating for policy and funding changes to education at the State and National level. I also want to ensure that the CSBA continues to provide high quality services to school districts. I have been an active member of the Delegate Assembly the last four years attending all meetings and advocating for the education needs of students in San Mateo County and California. I have served on the CSBA Legislative Committee reviewing important education-related legislation. I recently served on the CSBA Nominating Committee for the Executive Board. I have attended many CSBA Legislative Action days and I regularly meet with our local State Legislators advocating for public education.

I routinely meet with School Board Trustees and Superintendents in our county so that I can fully represent all the varied interests, not just my own school district interests. I would be honored to continue serving on the Delegate Assembly, and if re-elected, I promise to do my very best in representing our area.

Please describe your activities and involvement on your local board, community, and/or CSBA.

I have served on the Redwood City School Board for 8 years where I am currently the Board President. I have been on numerous board committees including policy, wellness, LCAP, parcel tax feasibility, community outreach, and homework. I have helped with many parcel tax and bond measures. For 20 years, I have volunteered with PTAs, Education Foundations and local non-profits.

I am the Immediate Past President of the San Mateo County School Boards Association having just served four years as President and Vice President. I have helped organize numerous educational forums and meetings in SMC and I co-chair the Kent Awards.

I have been a Delegate to the CSBA for 4 years, serving on numerous committees and presenting at the CSBA annual conferences. I recently served on the State Superintendent of Public Instruction's Environmental Literacy Task Force.

What do you see as the biggest challenge facing governing boards and how can CSBA help address it?

Education Funding - School districts in California have been inadequately funded for years. We are well below the national average in per student funding. And, in some areas, San Mateo County being one of them, the cost of living is extremely high so we need much more than the national average per student funding in order to provide a high quality education. We must work with CSBA and our education partners to secure more school district funding for operating expenses and facility improvement expenses.

Reserve Cap - We must continue to support CSBA and work with our State Legislators to repeal the reserve cap. This creates a bad precedent and goes against local control. It would be devastating to our students if the reserve cap had to be implemented.

Local Control - We need to strengthen local control by providing school districts similar flexibilities allowed to charter schools. We need to focus on student outcomes and reduce burdensome requirements that do not help with student achievement.
